is an old story, and therefore the more true. There is nothing new under the sun In every community of civilized men the primary conditions of social disturbance are always sent, - latent sometimes, indeed, but ready cr ferment and even for explosion, according to the fluctuations of circumstances in particular times. That discontent among men which anifests itself in social commotions and disorders, has its chief root, with us, in their own improvidence Such things have been of fro-quent occurrence, in every civilized country, through the whole course of history. In a primitive state of society they are harlly notice-ABUTOUCH to complex conditions of social and are ago there were no discontented or sadi-da people among ne bore. Busings had not body in the caulity, who did not expect to support, accumulating a few tilling dis pating them in indolence, amuse neut or vi a

People had the sound notion that could not expect to have anything unlesnt idea. Even when work may be had they do not earn wages steadily and do not save off" and spend their earnings, change e place to another, drop a large part of ulags in the liquor shops, acquimulate nothing from year to year and neverthink of tablishing themselves in independent put its and then when industry comes to a standsaved it by careful economy has their money and that they have a right to despoil him

ee it, attribute it wholly to the presence of regular would are tary or agreeted. But the main source of the r. It is in men themselves, ted Hugh Miller, of Scotland, who born to poverty and labor and pursued the fe of a stone cutter and operative mason till

in his time, as it is presented now here, with some variations, of course, entry for a summer and autumn about eigh en years ago, at a time when wages were high ring for balf an hour in a cauldness over He was invariably, too, in that state of spirite which in those days ctk's whole wages had been disapated in the And such, fortught after fortwas the course parsued by Now, employment, though easily pursued in summer and autumn, a Jock's profession, was always uncertain in apter, even when the winter proved fine and and when frosts were keen and urol hazed

was essentially necessary, therefore, to the sier seasons, to make provision for the seasons ore desiron, we concerned, the watch writer it to ourselve, and when Hallow day came and and amployment failed, we found our cives in possession of the which we had laid. ust as its price, if we may so speak. Twelve October to the beginning of May, and

re desirous to employ the time, thus fairly ed, in cultivating a little inheritance which, eser or larger measure, descends to all, and and secholously improved, must be es to the community Jock nes the great question at issue, had lock any

not one exper futting of it an we It was all our own, - all henest seamed by the sweat of our tros. We had never claimed any right to share with Jock in a single gill, we had right to share with Jock in a single gill we had never tasted his which we had never en oyed one will' of his tolacce, we had not right to intermedide with his earnings he had no right to intermedide with ours. If this was the tolastic act things with right to the e. in mg of a size submer and autima, a limited with 11 eye to the coming winter, could there have element intro incedsing his not tiplying the suin mers and autimans some thirfy or forty times, and by making their account dated earnings had and by making their accum tlated carnings I are reference, not to the winter of the year, but to the winter of life ' Assu edly not." writer does not mean to say that the poor e and claims on the compassion of men the contrart, it is admitted Ort the contrary, it is admitted that these claims, especially when poverty site ies it finisficials and not of poyerty side less it. I must rune any not rule, are very string. But when it comes to a quest in of 11/1, the indocut, intemperate and prodignal lave no claim upon those who pursue the vitues of industry and a briefy. As men cap, so will they reap. No contributes of man cap set as ite this fiture aw. Industry, provides dence, temperance, will not support not pro-vide means to support the indelence, improvi-dence and vice of a country. The dengral that they shall do so, which is always the main part

in support of such demand we go down hof its the forces that society in island will emply for One of the local organs of this ago this agost "The aditor of THI, ORECOSIAS has no supply thy with the masses of the people, and come the mily he does not understand them. He has no respect nor love for them, and therefore he misrepresents them? This raises a question adto reductions. Who are 'the masses of the peo-ple "This curricular insists that they are the Injet, sober industrious folk, who mave definite ripects and pursue them, and therefore united their own business, whether that business is banking, thing the soil, making coats, preach-ing the gospel, shoeing horses or belling talk, while the paper above quoted from thinks the masses of the people are those who are in what of lefty through their own lack of industrious. present and temperate habits—the sort who don't work with a purpose and save their money, the lock I will so if the country and of every the lock I will so if the country and of every the lock I will see if the country and of every the lock I will see if the country and of every the lock I will be seen to be seen that the lock I will be seen to be seen that the lock I will be seen to be seen that the lock I will be seen that the lock I will be seen to be seen that the lock I will be seen to be seen that the lock I will be seen to be seen to be seen to be seen that the lock I will be seen to be seen country, in whose names the self-styled "chronpique of labor" make all this noise, never telling them, of course, that the main fourthes with them, of course, that the main fourthes with thismeelves, but persentently leading them astray as quest of some ineginary and unrealizable right—though the only resources upon which they are others can ever depend in this world are

of these agitations, is in conduct with the law of God and in in and they who rise to insurrection

tion to on y, and inclong application, directed by a persevering intelligence, to the purposes of life. They who look for resources elsewhere will look overermore where not resources age to the found. These considerations tend to show how grea ly the angry crusade against the ()-nese, as a means of bettering he condition of those was complain most of the presence of the Chinese here, is misdirected. The great faults that hold men back in this country of grand opportunities are not in extraneous carametances but in themselves and should the time ever come with there is no longer a Chinamaria the country, t will be still the same

A writer ir the Ind and Faymer gives some points rejective to the establishment and main-tenance of a home market, that may be count ered with profit by enterprising farmers in Oregones well so in Indiana. The horse communication plans to excel in the quality of properties formshed to the city or rillage market, and being prempt in the matter of detyrery, that a home market can be secured for the small gon as well as in Indiana. He asserts that by home market can be secured for the small products of the farm that will pay a more cortain and satisfactory profit than that derived and send to city markets is no credit to the and another city limited in this state, not because it was specially inferior in quality when it left the farm-house, but because it has been handled carplessly, packed promischously, and made to look generally unwriting by those whose interest in it is bounded by a desire to get it off their hands at a rate tha will leave them a small margin for handling it. Butter that the careful housewife has taken much pains to make is thrown into the same tub with the country merchant, and he receives so little for himsiling it that it does not pay it grade and discriminate. In every town there are people who would be willing it pay in fair price for good clean, fresh butter, if they could depend upon getting it regularly. Eggs and sold in the same way, the gatherings of dirty coops, and they are the grade of the gatherings of dirty coops, and they are the gatherings of dirty coops, and the gatherings of dirty coops, and the gatherings of dirty coops, and they are gathering the gathering of dirty coops. cient nee eggs and fres: eggs all going into the same box. Not infrequently the savings of two months are rushed into market just before anhagiting or Christmas, to the well ground disgust of buyers. When eggs are and so cents a dozen in this is at such seasons, they city is at such seasons, they invariably are, it is not the price that consumers object to, but the quality of the product, stale a most to rottenness, that is foliated in in them by this sort of besiness. A hat er price would willingly be pale by consumers if they

could get fresh eggs from farmers who have a pride 11 seling a good article and wito stand ready to make good any loss to the purchaser The same 15 the with pothry and regetables of course 11 is some rouble to secura customers that are letter, but once secured it is its age of our set in all the secured of course this cannot be done in all cases, but in man, instances it could be made beneficial if prope is managed. As population in this state increases thus plan can be pursued with certain house, could manage it with success. The man and wares if you "want something in his line and use eas, or eggs that are stale, he is ferred to see a new route in hisnext attempt to create this kind in the effor to sup by her table with fresh Ann eggsant vegetalities derett lies the agree of the parameter and the change of the great to the change this given to the change of this because they forms fresh vegetables, and fundishinen every day when the film and inchesture hey are expectally cheap that they are pationized. When something is done to work up had give a uni form supply to a bene market in this humble direction by determined industry and intelligent effort, the question of a housemarket will be

agrications of threese expulsion has trought to be in fait t is manifestly affaid of them, and therefore it speaks with bated breat; and whis pering numbleness. However, it does see that the greatest industria and commercial Interest of Astona is involved in the issue houce

Of Agona is involved in the sage house though speaking housing, it sage. One is the point in connection with present and present in at the sage and one is the little states. Bo does the market for caused said one, Novit to kent of the caused said one, Novit to kent of the said by soft of this emants and a religiously into fleets will be have on the said of said or in the sage of said. Cowardion like this is contampable. To q. 44 ton \(\pi \) oright to be ashaused of itself. Why is speak out at once, and boldly, against a time.

The connection legislature has before in bill ide angle to the probabilion of train rut (ing. in that state on Sundars, between ? oct. A M and P M, except for "numperses of there or netessity" With so large a lough left escape as this it is difficult to see what will be can ell I v the passage of the law Necessity, in this case, will be defined by untille into it of traind, while the term 'mercs,' if it had any connection at all with the matter of futuring railron. rains, may be made to cover the whole tank c. The bil is probably introduced for the rail per of appearing a claims in some if ar ters without energy positing.

said van Hansschaft treen, a penson of the wir of 1812 deel in Chicago a lew days up at the rigo of 5. She had been a resident of a history a wee 1840, what a bleek of their Futer An Reuselaer of revolutionary fame, and her has an I, thomas Green, was a cousin of from Anthanal reen. age the Seattle (handle "Of he entisay that he werk marks the delegates as rebeing ngamptine law The resolutions are succedurary and disloyal. We publish the proceedings on this page, so that our readers may thorough ly conprehend their purport. The congress has shap y announced a sist similar to that in Seatt 4.

The people of Seattle are getting some points on mortin law. It must be pisseant to the self-respecting citizans of that city to read in their plapers that "it is likely General Gibbon will permit the council to meet to transact imin their own industry, sobriety, steadfast atten- pertunt business."

THE REGISTRY ACT

Salem, Fab 1a, 1880 To the Ed tok of the Carnovian Fig. 18-0

"Inquirer" wants "Spencer" to give him the items of evocace of the against item act. Before replying I must say that I deall e being ewitched of the track of my argument on an immaterial side issue. The content ion of my letter what has registration of years and deep complete. the registration of voters werld cost considera the registration of voters were ideal controlled be done according to have the latest taw that of Nie 30, set the first Minday of March as the time of registration that in a sparent defiance of the law the county authorities had selected the first Monday in April as the time, in let the repealed at of Nai 25 and that the would make the trouble. If the is not so, would "Inquirer," whose position where awyers most foccarries are given in datastical to not pus-

wrong

Now to consider the expanse, as in puter wishes. There are thems whose cost is known and itsms that can only be estimated. You can stimate an untuly the expanse of the statismery, in which interest his full seems to have been passed—the measure that, if the voters an unchapant, only ninetteen names on a page no precinct however small rull magnificant allowed logic with untakent marms on a page no precinct however small rull magnificant allowed togo without a book tog moogh, are old names (twenty seem pages), the average priciact in degraph colling less than 10 totes, more than four fitting of the stationers at 1 of that required for the camp yee of, wasted for no magnimate purpose but to increase stationers bits. Also you can secondary es must bees of olikeling, cierks, shorting, judges, just Les, constables, etc. More roughly some an estimate the expense to the whole votang population of 0 egon (outside of Fortham, largely agricultural and hucolog, and consequently widely scattered) of leaving their work at the busy spring season of the year, and thaveling to the place of registration and back, losing a day certain and two days if they come, according to law, on the first days of Mirch, and find that they have to come back in April.

But what is more difficult to estimate is the

inst dops of Much, and find that they have to come back in April.

But what is more difficult to estimate is the price that will have to us pand for certain necessary knowledge that is one outside of Portlini presesses, and which may have been copyright or or patential. It there could one of these distributions, word for word from the act. (See muid die of page 52, laws of special session, 185.)

MYSTER 180.

die of page 52, laws of special session, 185.)

"(in election day the judices shall in licate infine poll book by the word votes? it the letter "V," the name of the vote at the time of foling in the column provided for that purpose, etc.

It is known that some distinguished ellinens of Oregon have been accustomed to change their names under the pressure of orcamisances, yet is was not thought this labit. Granting that the names of the voters are so changeable as to require it in this is not the point. Granting that the names of the voters are so changeable as to require fixing, the matter is, how as the ster "," or the word "voted" to be used so as to show the special name sported by each load voting and the time of voting. And for this secret we expect to have to just the author of the blance to just the author of the star.

MASTREY NO. 2.

I quote verbatim to iteratin from near the top of part it. Sp. Sees Laws, "All entries in the precipitor register shal be char and distinct, and the name of the applicant shall be written in full, without the use of initials." Now we can write rames in full. For instance.

"John Juop Astor,"

And we can write them without the use of in-

And we can write them without the use of in-tixes, thus " ohn roos stot "

"ohn ROJ stot".
But we cannot write the 11 in full without the tues of initials, and we expect to pay suy one hamis: mel, who can each us how.
I know it may be said, that as to mystery No 1 it is law-maker probably meant that the letter "?" was to be affixed a slow that the voter had, cast his ballot and that as to mystery No 1 the meaning is possibly that the name was to be written in full folly the and nothing more And that the words, "without use of filt. Is," are surplusage.

And that the words, "without use or mining are surplusage.
But a law for which you have to apologice at early second paragraph (I sage what if does not mean, (I I means what it loss not say,) is not likely I) work very well.

I might continue my slegant extracts, but the grise is no worth the capile. If we can wory along under this how unfit the next legislature without a contested election in crisequence, will be amended at replaced, in less, we show the probable, it is declared unconstitution if it they meant me. So in the tibe. SPEN IR

DEATH BY DROWNING

DEATH BY DROWNING

Demmark Accorder

George Polioroy, a young min about the election, was drowned January by while at empling to ford the elections: He had lift his fathers dairy and on the merining of third day, in calling to visit tapl (HP erce's fruintly up bases river. The foung man stopped at H. Zam walls to higher if it was possible to go up the rise individual to the property of the day where he wish the first eight directed, and was those mentioned by M: P that which a did noth it possible for a man well ac manded with the far is to alle its way up the river, yet I calcided the jet man to concert the hills but expressing or indence in his horse, old Jakie, Pomeroy continued to go up the st can, and standed. He was last seen jussing Wr. Bearon's door, not for allow losts, and had then here in swimp it is water.

THE REVIVAL MEETINGS A Day of Posting and Proyer-late resting Midday Mootings at the Tabernacie.

A Day of Pasting and Prayer—Interesting Midday Moctings at the Taborancie.

Vestegday was observed as a day of prayer and finsting by the object of sengaged in the union services. The moc higs were held in the first Burtist church and commenced at 10 o lock conducted by Rev. E. W. Caswell of Grace. M. If church The so beet was confession and but dilation. The dear was confession and but dilation. The desire which the remaining part of the hour was given to grace.

FIR SECOND HOUR.

Was conducted by Rev. C. Foilill, of less Lettland. The subject for consideration was, Induring the flower for bervice. In Induring the Second Hour was given to grace.

FIR SECOND HOUR.

Was conducted by Rev. C. Foilill, of less Lettlander of Acts were read the interleption of the subject for the service. In Induring the subject for the successful years of the list chapter of Acts were read to the list of the list of the subject of the last chapter of Acts were read to the list of the subject of the list of the subject of the list of the subject from thich without the work to do subject from the successful Jesus had taught his disciple for years and they had they prover to cat but devils, but Leey were consultanted to wait until they provided the subject of the list great were then offered interpletate with stinging.

First tripp hold.

Was confl. Such by Rev. But had must be I ple for consideration with stinging the results of the provided who industry and they had the subject. The trinsaction of worlds adalers is hot to occupy at the time and attention. When the business man as in the results of the past your less than a must be regarded who industry when the business man as in the results of the past your less that resident to he prefit account. When shall the profit a most list of the past your less made as in its interest, of the past your less made as in an appetite the religious matters as in the salues conducted by Let R. I laughth of St. John Preshyter a charlet who made and the submer of the light sain. In the next with the

Christians

From * O.J. o clock was occupied by priyer for oblighten and consideration of the duty of parents to them condicted by Re. A. Schleink of the fermant sybogoliest for rota. All samints desire the best for "both children Childh and is the time which to implant seeds of truth. The care risting upon parents on account of them children is great. This greatest anxiety should be for their future welfige. Instances were given from both instary, showing the care with which children were instructed in the tears of this lord. Christian parents were nightly factors for and in the world The auditines there is no day to the form the construction of the constru TAST HOUR

The auditiness there is there in device the shall of their unconverted children.

NEWSPAPERARCHIVE®

For months past an onslaught upon the Chinese, looking to their foreible expulsion from the country, has been raging throughout the Northwest. In several places it has culminated in nalawful and intons proceedings. The Chinese are been under the country to the name are here under supplations of a treaty between their own country and the United States.

That treaty is one of the supreme laws of the That treaty is one of the supreme laws of the land. It is the day of every citizen to observe and obey it, and the duty of the authorities, state and national, to enforce it. They therefore who are contenting measures for expulsion of the Chinese are proposing rebellion sion of the United States. From many locas-ties, by unlawful proceedings, the Chipese have been forced to depart. The effort to expel them is now concentrated upon Portland. Here it will step. Portland to a law-noiding city. suffer a people who are here in normance of law and entitled to its protection to be driven zway by force. Therefore any attempt to carry on the programme directly implied in the achon of the so-called "congress," will be met by the authorities of the law, and met with fore if necessary. If they persist the actors will be sareted if possible, and if not will be shot to

sp hopelessly foolish and blind as not to forespecting result. The consequence would be precisely the same if Tax Ourganian were supporting the New York Tax Ourganian por ing the programme of agitation and expu alou, Instead of opposing it;—only it is probable that the support of The Orrgonian would increase the agitation and push on the crisis, and that in consequence there would be greater chiamity of disorder and bloodshed. But the law would be vindicated just the same, only perhaps with more severity. The best friend of those who are pushing this undertaking, so such, if persisted in to be met by the heavy hand

SONIAN wares those who may meditate this nuawful enterprise, that it must be abandoned. It will not succeed; no attempt to enforce it will be permitted, and he is the best friend of those who, may contemplate such undertaking, who sets them plainly that it will lead to a condict with the law that certainly will destroy them.

A QUESTION OF MILITARY POLICY.

The military policy of the present fine is one of concentration, involving the disposition of the army in a few large central establishments and the immediate or prospective abandonment of imest of the small posts throughout the coun try. It is much changer to maintain large bodies of men massed in a few garrisons near-general markets than the same number of men divided into many small garrisons, widely seg arried, many of them far from any market. Military discipline and spirit are promoted by concentration of troops in large bodies; and for officers and their families, life in large garrisons is much pleasanter than at small and iso lated bosts. These considerations with the nat with general officers of the army, whose recommendations have at last prevailed with the cou-

revolutionized the military conditions of the exceptions, have either ceased to exist of have carried to be formidable. Under the changed conditions it is folly to maintain at great expense the old and pheolete plans of protection. A few powerful Hudian tribes still remain, it is true, but followed the plant of the plant o par ment alundoned or reduced the garrisons of a verification posts where the cost of supplies and of transportation was very great, d phassed the forces under this community at three or four large roals, chieffy at Vancouver barriers, near this city, the cheapest point of general supply and the center of our syltrox system. Similar movements have been note in other departments and the process of concen-

ness of our military power. It is said that tien. Pope proposes to mass all or mearly at the troops of the Pucific division at San Francisca treops at Vancouver, or only a company or two, at the beginning of this bad business on Paged sound, riot night have a miles course at South and Paged out from exhaustion before the solution in the solution in the solution is solved to the solution in the solution in the solution is solved to the solution in the solution in the solution is solved to the solution in the solution in the solution is solved to the solution in the solution in the solution in the solution is solved to the solution in the soluti digits could possibly have arrived. Suppose lawdess. movements against the Chinese had been made simultaneously at half a dozen places. they are still quite likely to be, what would be the dinesquence if it were necessary to send to San Francisco for soldiers? The Idaho Sintes-

the coast forces at San Francisco, save: The troops are supposed to be for national de-fense, from ties without and enemies within. The defense of han Francisco and other seaport towns defense of San Francisch and other seaport towns must rest upon the mays. The soldiers are intended to protect the loyal people of the United States against domestic troubles and against lindians. Every state and territors in the Union should have, a sufficient number of troops quartered within her horders to ensure the ephonement of the laws of the binted States and when required by the novernor to put down thats of domestic violence of all kinds, and to protect the people against the Indians.

dians.

Delays are dangerons in times of trouble. Had
Parter moved three boors sooner, he would have ved the battle of Bu't Run, had buel come up in time the second day's battle at Shiloh would a have been fought and thousands of lives would have then saved. Time and space will not permit us to argue this matter at length in this issue, but we must say a few words about Idaho. The Inwithin the last eight years, and there is no safety to the people except in the presence of the troops.

in the people except in the presence of the froots.

The Obrestering supect and general disturbance against the Chinese demands the presence of soldiers if the United States intends to enforce the laws. The Mormon troubles in eastern idaho, at simes, are of a serious and threatening character. times, are of a serious and threatening character. At the next term of the district court in the Third districthers will be thirty polygamists on the decise for trial. They would not amount to the laws for an hair if they were not sprain of the strong arm of the military. You cannot bring

itroops here from San Francisco, in less than three days. It is the immediatel presence and not the re-mote prospect that troops will copie that keeps the Mormon law defler, the Indian and dynamiter PALTLAND, THURNDAY, FEB. 18, 1886. ellbin the bounds of the law. The paraphic malla out would have to be gone throu governor and the president, and the three obscribed in getting troops here from San Francisco vould be so obug, they might as well be in Alaska as San Francisco as for all the good they could do in quality or suppressing any disturbance or I idian.

There is truth and good sense in these remarks. I would be an act of great judget eato

marks. . t would be an act of great injust ce to leave (fregon, Washington and Idaho approtected, panticularly when society in these charges with the elements of disorder.

Success in manufacturing industry depends bis med have steady habits, the manufacturer is subjected to continual loss. The same is true subjected to confinual loss. The same is true of similed every employer. Many men, when they first their weekly or monthly wages, thesphear for a time, and return to their employment only of er an interval of, several days, when their money is all used up and their period of disapp to a has rendered them practically unfatter require their duties. To the employer this causes great loss. Their work is postponed, their mechanisms deather their cause districts of the cause of the same beir machinery stands idle, their orders cauget be filled. Many persons are driven by tress cir-numationess to employ Chinese. They say hey actually cannot depend on white labor. The proprietor of a well-known restaurant in this city, where six or eight (binese are employed, sity, where six of eight to make are amproved tried the experiment quite recently of substituting white men. On Saturday night be paid off his amplayes. On Sanday inone of them appeared, on Monday two or three zame in, and they whole number was not back till Wednesday. All had been drunk or druking, and he was the interest to the same of th loss of business to the propiete for was great. He most business to the propiete for was great. He most business employes. Another, who has but no contract of cotting for delivery about twenty-five cords of wood per day has declined to renew the contract for the present year, because he fears he will not be able to get the wood tut it rates that will hat entail loss. A reduced marker that will not entire these to get his stock really for the season's work, fearing that when the fishing ceason is at its high this men, employed in place of Chinese, will demand extravigant suggestant strike to enforce them.

wages and strike to enforce them.

Such facts as these go far lowerd supporting the demand for Chinese labor here. Many white persons who ask for work have the babit, so often commented on by this paper, of worsing at short time and then abundanting their jew hoyment to spend their earnings in kiledees and dissipation. No employer can do key hing with men of secti habits. In part caller he manufactoring industry can as profitt cular no manufacturing industry can be profitably carried on with such labor. Herein is one of the great reasons why capita, here is so re-tactant to engage in undertakings that require employagent of labor. We are sten told, in-deed, that this is the principal reason. Honce It is that they who have had most experience in e uplosing labor here uniformly say that if the employing their bern uniformly say that 1945e Chinese were to go there would be left un suipply of hilloufor many industries that could at all be depended on. White working people must remove the cause of this complaint by whill-tion of greater fidelity. The question, Who would do the work of this country if the Miness were gone? has not yet been answered ary "agitator," nor will it be. Who will wa ary "ngitator," nor will it be. Who will wash and cook, clear our bands, pack our fish and cultivate the vegetable gardens a nout the city? Certainly the sole fled, working on who itself on driving out the Chinese will not.

NOT A HIRED MAN'S COUNTRY.

There are many indications of returning pronperity in Southern (region. The writer has been a nild-and open one, and stock of all kinds has faired much better than usual. The outlook for crops is remarkably good. The mark's that was opened up for fruit and vogstables by the extension of the O. & C. railroad into Jackson and Josephine counties has stimulated these branchesyo agriculture to a point of profit, no. realized until recently, and where beginnings were mind lest year the result was sufficiently ercouraging to insure a greater effort this year. The class of immigration that has found its way to Southern Oregon counties is largely of a permanent sind. Home-seekers, who know who, they want, who have indulged in no Arcadian dreams; who do not expect something for nothing, with climate and scopery thrown in, have found in many localities in Southern Origon. places where homes can be secured, with a reasonable promise of plenty for the present and a critainty of a surplus for the future. This is dit that it destry and sobriety seek in item gratice. Self-dependent, healthful, intelligent men and women accustomed to ways of thrift and well grounded in the principles of economy depot plant anywhere to keep themselves above wait; and when, its get rid of the rigors of a see crecilinate, it, for some to this state will well defined purposes had in the expectation that the same provident cure that made it possible for them to be in check currentstances in the middle wise. The time is a score of a wall propose further the expectation that the same provident cure that made it possible for them to be in check currentstances in the middle wise. The time is a score of a value of a standam, every shall be about the class of people and over the state, while dillera, professional men and lappiness of society is apack out with the material of the proposed of the state. The interest is come for the class of people and over the state, while dillera, professional men and the probability supported the state, while dillera, professional men and the probability supported the state, while dillera, professional men and the probability supported the state, while dillera, professional men and the probability supported in successional states of the state, while dillera, professional men and the probability supported the state, while dillera, professional men and the probability supported the state, while dillera, professional men and the probability supported the state, while dillera, professional men and the probability supported the state of the state. The interest of the state of the dillera professional men and the state of t found in many localities in Southern Ougen-places where homes can be secured, with a rea-combiel promise of plenty for the present add a certainty of a surplus for the future. This is there are already more than can find profitable on ploymen, in the few industries of this state. Hence such of this class as leave steady sinidovment at even very small wages, and come to there is interest mistake. There is intthe or no sufficial building going on in the state at present or in immediate prospect, little indu-nfacturing (flam) kind and few industries that are not already full handed, with planty of reserve for any emergency that is likely to occu-For abvious ressens, therefore, the gon is negative section to the distance quantry. Still less is in a country where there can hope to find some best in a day of the section of the sect

A HORE MOR HOME MANUFACTURE. If the committee of lifteen which has in there is matter of providing it is sity with which wells adopts any one of the devetal place now uniter consideration, it will involve plans now under consideration, it will involve the purchase of a large amount for heavy from piping. It is said that this will be the main feet of cost. An iron founder of this city who has estimated carefully the cost of making piping here assumes on that it can be produced cheaper than it can be bought in the east and trunsported here. The owego from is finely adapted for this purpose and alcomparatively small addition to the existing plant would enable the fill works to under the ability of a finely and a fill works to under the action of a finely consil and of works to under the action of a finely able the old works to turn out a quality of piping roughling he respects to any that can be bought

If the op true, and we do not do bt it, prefer ence one at the be given to home manufacture It would be good policy even to pay a little more for home-made piping than to send away for it A contract for two or three hundred thousand A contact to two or uncertainties mayaga delians worth of work would put the oxyrego company on its feet again. It will digits adjoined to some handress of men, stilled and unskilled, and be a general guide benefit. The money would return to general effectivity herainstead of going out of the country to remain, was believe, the taxpayers of the city would rather the work were dozen at home even at a consulerable advance over the eastern price It is not utilikely that if the business of pipe and many of our towns which have heretofore relied upon wells for domestic subply are intraduring water works. It is though that if a large con ract offered, the parties in interest in the Oswego Filgation could accord module their differences sufficiently to start up the works.

George Venable Smith, who has been plying the vection of "leader" at Senttle for some months, shifted the ignominy of arrest last Sa-nufsy by a minion of the military government of that city. The Chronicle says: "He was thoroughly searched by the guard to see if he had followed his twn savice; 'Are you armed? If not, then it is time to arm yourselves.' It was a sad sight to see this great man holding both han is up, as a private midler deltir went through his cicthes

He was committed thereaf er to the militar; prison." It is a pity that this cruel blow had not been struck at liberty scoper, us it would have given the Portland "congress" a chance to set forth in a long 'premittle the outrages to which freenien are subjected, followed by an indignant resolution calling for the courtman tial of Gen. Gibbon. Or better sail, this congress might likelf have ordered the continuatial, in which case the tyrant would ere this tators avenged, have been depesed and the wrongs of the ngi-

There are six establishments in New York city for the care of homeless children. Buring the past year 13,212 different boys and girls were cared for in these; institutions, which are partially self supporting. (If 246,375 to bigings fundshed during the year only 80,435 were free and of 324,495 metals, all were part for excep 54,933. The children were encouraged to save their pennies, and deposited during the year \$72,641, in the reference to the contract to the children were encouraged to save their pennies. \$1200 41 in the savings bank. In this way want is relieved and thrift, or couraged. Mandistron carry in childhood is too often a produce to vagrancy in middle life and pauperism in oil. age. Helpless children are the ittest of a subjects of that kind of charity that looks to

In the opinion of the Abountain Sentine! out public school system as manipulated by educa-dicinal experts te not what the intelligent citics: ship of the future demants. It says: "In plaint words, echools should do note training and less cramming. Habits are of more value than information, and our pub is school system as now existing is largely a lai are, because it does a great deal of cramming and but little training." It may be well to say that while the public schools are arraigned just you the charge of cramming, the formation of habits of industry, thrift and self-control is more specifically the province of the home that of the school and is

The cureer of Mr. S. B. Pathennii as a demo-cratic editor in Portland has been more brief than brilliat. He did no comprehend the con-ditions necessary to success in the newspaper business here. We shall kepp now to see some person or association and risks the publication of n democratic daily new sense at Portland. of a democratic daily new spaper at Portland; and to favor such under alling THE OREGOSIAN stands ready to divide eighth with such paper the rost of currying the doors of the associated press. Whether the S'a door is to be revived or not, we have no infirmation; but it is not protable that Portland will long be without a democratic caily newspaper.

It appears from late incompts that Garber valley, in Yambill countr, was given a name at-together too mild. A cugar weighing 250 pounds, having just breakfasted from the choice portions of five sheep, and two wild cats were folled there one day last-week, while deer, apparently conscious of the protection afforded by the close season, pasture q fielly with sheep and

There are seventy-eight includers u the class of cadeta that will have West Point next com-mencement. The class is said to be not only the largest in numbers by the highest in oth-cleary of any ever produce from the institution.

BUSINESS PLEMS.

THE VISIONA COTEKE HOUSE, hington at leads all. Upthers in every style

Et is amazing indeed that may one should be

of lawful nuthority, is a journal like this, which wants people of their danger and tells them whit the consequence surely will be.

Let no one say that this statement is an idle threat. THE ORECONIAN does not threaten anything on such a subject, since the execution of the aw is not in its hands. But it knows that the aw certainly will be executed, and it would carelict if it did not say so. The time calls for plain, earnest and even solemn speech. The programme of Tucoma and Santtle will not suc-ceed at Portland. If attempted, it will be met and put down; and it will be put down; with a sewrity proportioned to the energy of unlawful attempt. There can be no posthe unitarial attempt. There can be no pos-able doubt of it. Are they the best friends of the community who foresee this consequence and raise a voice of varning against it, or they who incite the proceeding that will surely lead to it? The notification to the Chinese to be gone by the 34th of March is a standing menace off disorder, rebellion and bloodshed. Viewed in the light of consequences that have followed like declarations elsewhere, it can have no other terpretation. Again and again The Ohe-

tra ling civil authorities. The general infroduction of railroads and the practical subjugation of the Indian tribes have country. It is no longer necessary to protect helpless settlements from bloodthirsty savages

graphs and railroads make it easy to reach any probable scene of outbreak within a few hour from a central station. Take our own department for example—it is possible to mass its entire force at almost any point within its limits in thirty-six hours. Ten years ago it would have required as many days. Recognizing the new situation, the late commander of this de-

t at on is still noing on. To an extent, this is, we believe good and proper policy, but it is in danger of being over-done. Carried too far it would limit the assistance of the proper policy. and is now arranging for the accommodation of 4000 mm at the Preside post. Of course it is not intended to abandon Vancouver and the coast forte, but it looks as n more any were to be reduced almost to nothing. An worst protest. The coast forte, but it looks as if their garrisons such a newement we must protest. The force of this department is not large. We have not a comping to spare. San Prancisco is too far away for immediate cab. If there flad being no

man' discussing this proposition to concentrate

That she is trail, aften in box y,
"Tis true, 'ils.true 't s a hity,
And pity 'ils, 'the true."
